### **The Thin Pink Line**

The Thin Pink Line a term coined by Dr. Kathleen Reardon, is the fine line women carefully walk in an effort to achieve their professional, personal and financial goals. If you go over the line in one direction, you're labeled "too aggressive." Go over the line in the opposite direction and you're considered "too girlish." Four women who have seen it all, been there and back, share what they have learned along the way so you can tread confidently on roads not yet taken and widen the line for all women.
